The claim objection is withdrawn since the claims have been amended to correct dependencies.

The outstanding rejection under section 112, second paragraph is withdrawn since claim 2 has been amended to clarify "SN" and claim 3 has been amended to clarify the recited separation.

The outstanding prior art rejection is withdrawn since the applied references fail to teach or suggest the step in which the effluent from the SMR is mixed with additional fresh feed and the feed/SMR effluent mixture is then fed to the ATR with carbon dioxide.

The outstanding rejection under double patenting is withdrawn since the conflicting claims do not recite or suggest the step in which the effluent from the SMR is mixed with additional fresh feed and the feed/SMR effluent mixture is then fed to the ATR with carbon dioxide.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
